British Politics Since 1945-
David Dutton 1997-05-28 This book provides a concise survey of British politics in the postwar era. Now expanded in a new edition, the author extends his exploration of the theme of "consensus" through to the present day, and provides updated further reading. Issues in British Politics Since 1945-
L. J. Macfarlane 1981 Britain Since 1945-David Childs 2006 Bringing the picture right up to date, this sixth edition of the most reliable basic text on recent political history not only discusses domestic policy and
politics in particular, but also covers external and international relations. New additions for this edition include: a discussion of 11 September 2001 the Iraq War and after the election of Iain Duncan Smith and Michael Howard as leaders of the Conservative Party immigration, asylum and identity the wedding of Prince Charles and Camilla Parker-Bowles the 2005 election and Blair’s standing as Prime Minister the controversy over fox hunting, the Gambling Act and 24-hour drinking the importance of China on the British arena. Established and authoritative, this volume is a crucial text for all students of contemporary British history and politics.

British Politics since 1945 - Peter Dorey 1995-10-09

British Politics since 1945 offers a comprehensive overview of postwar British politics ideal for introductory students and general readers alike. The book balances a narrative of the major events and personalities of the postwar political scene with a critical assessment of the recurrent issues and concerns of political debate. It also analyses the main ideological perspectives operating within party politics since the Second World War - from the Right, the Centre and the Left - showing how these dominant groups have viewed developments and expressed their ambitions over the last fifty years. Succinct chronological account complemented with critical, thematic assessment of ideas Covers central topic on all introductory politics and postwar history Extensive use of tabular material, and appendices for reference

West European Politics Since 1945 - Roger Morgan 1972

Britain and European Integration Since 1945 - David Gowland 2009-10-30 This book provides both a comprehensive introduction and a perceptive examination of Britain’s relations with the European Community and the European Union since 1945, combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics. Few issues in British politics since 1945 have generated such heated controversy as Britain’s approach to the
process of European integration associated with the European Union. The long-running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault-lines within governments and caused deep and rancorous divisions within and between the major political parties. This highly contested issue has given rise to bitter campaigning in the press and between pressure groups, and it has bemused, confused and divided the public at large. Key questions addressed include: Why has Europe had such an explosive impact on British politics? What impelled British policymakers to join the European Community and to undertake one of the radical, if not the most radical, changes in modern British history? What have been the perceived advantages and disadvantages of British membership of the European Union? Why has British membership of the European Union rarely attracted a national consensus? Engaging with both academic and public debates about Britain and the European Union, this volume is essential reading for all students of British history, British politics, and European politics.

Britain and Europe since 1945-Alex May 2014-06-06

This is a succinct, timely introduction to one of the most highly charged political questions which has dominated British politics since 1945: Britain's position in Europe. The study traces the evolution of British policy towards Europe since 1945, presenting the full international context as well as the impact on domestic party politics - including an analysis of the divisions in the Conservative Party under John Major.

War and Reform-Kevin Jefferys 1994 World War II marked a crucial watershed in the political history of modern Britain. This book seeks to explain, through the eyes of contemporaries, how the transition occurred from the Conservative enterprise society of the 1930s to Labour's welfare state and mixed economy of the late 1940s. War and Reform also addresses the question of how
the political changes of this period affected British society as a whole and how much public opinion itself shaped change. The Trade Union Question in British Politics-Robert Taylor 1993-01-01 This informative book examines the changing relationship between the trade unions and British governments from the making of the social settlement of 1944-1945 to the post-Thatcherite era of the Conservative political domination of the early 1990s. Britain and the World since 1945-Alasdair Blair 2014-07-11 This Seminar Studies title is a succinct study of modern British foreign policy, focusing on the period from 1945 to the present day. Since the end of the Second World War, Britain has been engaged in international conflicts from the Suez Crisis to the Gulf War and has actively sought involvement in transnational and global affairs. Starting with a brief overview of the rise and fall of the British Empire and continuing chronologically with detailed chapters covering the second half of the twentieth century and the beginning of the twenty-first, Alasdair Blair discusses the highs and lows of British foreign policy in an accessible yet analytical manner. Dealing with themes such as the issues triggered by decolonisation and the changing relationship between Britain and Europe, this text considers the pivotal moments in modern Britain’s engagement with the wider world. Included in this title are supporting materials, such as a chronology of important events from 1945, a Who’s Who of key government figures and a collection of relevant primary sources. Thorough yet concise, Britain and the World since 1945 is the ideal resource for students interested in the development of British foreign policy. The Making of Modern British Politics-Martin Pugh 2002-02-01 The third edition of this successful text has been revised to include a new chapter on the politics of the Second World War, and to reflect recent developments in research into the period. Third edition of this insightful survey of changes in British politics Now extended to
cover the politics of the Second World War and the election of 1945. Extensively revised in the light of recent research, it looks at the Labour Party's evolution into a national rather than sectional party. Includes updated suggestions for further reading.

The British State Since 1945 - Tom Ling 1998-03-06

This volume identifies the main changes in the British state since 1945 and evaluates their consequences. It provides students and practitioners with an understanding of the changing public sector and the relationship between these changes and the wider conduct of politics. Recent academic and political responses to the British state have been influenced by an atmosphere which is increasingly suspicious of hierarchies, bureaucracies and, indeed, the state itself. Tom Ling identifies the factors leading to this development and in the final chapter he evaluates the more important recent responses to the changed atmosphere. The British State Since 1945 will be widely read by students and practitioners of British politics and public sector change. Its concern with policy-making and policy-implementation also makes it a valuable resource for students of social welfare and economic interventions. Through its evaluation and application of a variety of theoretical and analytical approaches to the question of the British State, this book will also be of interest to everyone concerned with more theoretical debates about the nature of the state and contemporary politics.

British Foreign and Defence Policy Since 1945 - Robert Self 2010-06-23

Foreign policy has dominated successive governments' time in office and cast a consistently long shadow over British politics in the period since 1945. Robert Self provides a readable and incisive assessment of the key issues and events from the retreat from empire through the cold war period to Humanitarian Intervention and the debacle in Iraq. Euroscepticism in Contemporary British Politics - Anthony Forster 2002

By conducting a detailed analysis of British post-war politics Anthony Forster reveals the
development of a core set of beliefs, a history of persecution, displays of moral rectitude in opposing Europe and scepticism's ability to change beliefs.

The Conservative Party and European Integration Since 1945-N.J. Crowson
2006-12-05 This volume provides an up-to-date and comprehensive introduction to British policy in Europe. By exploring the schisms within the party over Europe, through primary source-based history and theoretical discourses of political science, N.J. Crowson gives the reader the best sense of understanding of how and why the Conservative party’s policy attitudes to European integration have evolved. The Conservative Party and European Integration since 1945 adopts a thematic line based around two chronological periods, 1945–75 and 1975–2006, and uses different methodological approaches. It explores the shifting stances amongst Conservatives within an economic, political and

international context as the party adjusted to the decline of Britain’s world role and the loss of empire. Crowson analyzes Britain’s role and relationship with Europe together with the study of the Conservative Party, and deals with economic, commercial and monetary issues, successfully bridging a serious gap in any discussion of the UK’s relations with the European Union and appreciation of the political world in which Conservative European policy has been framed and pursued since 1945. This book is recommended for background reading in undergraduate courses in British politics and European history.

The Labour Party Since 1945- Eric R. Shaw 1996-04-11 This book provides a critical overview of the changing Labour Party in postwar Britain. Adopting a thematic approach within a structured, chronological framework, the book revolves around one central question: what has the Party been about and what specific objectives has it
striven to realize? The author examines the so-called transformation from "Old Labour" to "New Labour", and not only identifies the key stages in its evolution, but highlights, too, the major determinants of the change. Exploring British Politics—Mark Garnett 2012 Concise, comprehensive and accessible, Exploring British Politics presents an insightful approach to British politics with a special emphasis on developments since the 2010 general election and the formation of Britain’s first coalition government since 1945. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes - the health of British democracy and the transition from traditional models of government to more flexible forms of ‘governance’.

British politics over the last fifty years and charts the changes in the central features of the British system of government and the types of individuals who become politicians. The Almanac of British Politics—Robert Waller 1987 This new edition of the definitive guide to the political map of the United Kingdom has been thoroughly revised and updated since the second successive Labour election victory in 2001, detailing each of the constituencies sending representatives to the House of Commons.

The Politics of Crisis—Geoffrey K. Fry 2001-08-18 Geoffrey Fry offers a challenging new interpretation of one of the most dramatic periods in British political history. From the Great Depression to the end of World War II, Fry assesses the record of British governments--and finds new cause to overturn conventional wisdom about the successes--and failures--of British political leadership at home and at war.

Britain and Norway in Europe Since 1945—Geir K. Almlid 2020-12-01 This book
examines Britain and Norway in Europe from 1945 through to the former's departure from the European Union in 2020. It compares their European relations and investigates their bilateral relationship within the contexts of security, trade and, above all, European integration. Britain and Norway are outsiders in Europe, and they have both been sceptical of the continental federalist approach to European integration. The question of membership itself has been highly controversial in both countries: the public has been divided on the issue; it has plagued political parties and governments; and prime ministers have resigned over European issues. This book explores why these countries have struggled so deeply with the idea of Europe since 1945, and looks ahead to how the relationship between Britain and Norway might develop after Brexit.

British Foreign Policy since 1945-Mark Garnett 2018
British Foreign Policy since 1945 brings a chronological approach to the study of British foreign policy since the Second World War in order to make the principal events and dynamics accessible within a broader historical and cultural context. The key features included in this book: a detailed chronological survey of developments in post-war British politics; an integrated discussion of foreign and domestic policy developments indicating connections and interlocking themes; illustrations of British foreign policy drawn from popular culture; analysis of Britain's role in the world, particularly in regards to the UK's decision to leave the EU; a range of in-text features including essay questions and seminar/discussion topics. This timely book will be essential reading for anyone interested in British politics, foreign policy analysis and British history.

World Politics Since 1945-Peter Calvocoressi 1977
The People's Peace-Kenneth O. Morgan 2021-07-29 The People's Peace: Britain since 1945 is the first comprehensive study by a professional historian of British history from 1945 to the present day. It examines
the transformation of post-war Britain from the planning enthusiasm of 1945 to the rise of New Labour. Its themes include the troubles of the British economy; public criticism of the legitimacy of the state and its instruments of authority; the co-existence of growing personal prosperity with widespread social inequality; and the debates aroused by decolonization, and Britain's relationship to the Commonwealth, the US and Europe. Changes in cultural life, from the puritanical 'austerity' of the 1940's, through the 'permissiveness' of the 1960s, to the tensions and achievements of recent years are also charted. Using a wide variety of sources, including the records of political parties and the most recently released documents from the Public Records Office, Kenneth Morgan brings the story right up to date and draws comparisons with the post-war history of other nations. This penetrating analysis by a leading twentieth-century historian will prove invaluable to anyone interested in the development of the Britain of today.

Northern Ireland Since 1945-Sabine Wichert 1991 This study is an attempt to understand the history of Northern Ireland as it evolved from the introduction of the welfare state to the comparative prosperous 1960s which brought some liberalization to a conservative society. It offers an explanation of how and why the expectations raised in the 60s were frustrated by the upheavals of 1969-1972. It shows how the declining economic fortunes of the province contributed to the Ulster problem, namely who should rule Northern Ireland, catholic nationalists from Dublin or protestant unionists from Belfast. recent history lies in the backwardness of its economy, politics and culture. When the first steps towards economic and social modernization were halted by the new troubles, 19th-century modes of political behaviour reasserted themselves and the accompanying onset of economic decline created renewed defensiveness on both sides which promoted the intransigence of
antagonistic and
confrontational politics. 
British intervention from 1972 
had no means to address the 
problem, and hindsight 
suggests, any political 
solution was therefore 
doomed to failure. values of 
both sides in the conflict that 
overshadows the provinces 
history. The author tries to 
brake through the political 
and often journalistic 
partisanship which has often 
blighted any understanding of 
Northern Ireland.

Britain and Defence 
1945-2000-Stuart Croft 2001
A changing world requires a 
re-evaluation of British 
defense policy. Examines 
Britain's global and European 
defense roles. Explores British 
nuclear weapons policy, 
politics of defense and arms 
procurement. Takes issue 
with traditional "declinists" 
assumptions. This book 
examines British defense 
policy since 1945 on a 
thematic basis, thereby 
offering both an international 
relations perspective and a 
domestic viewpoint. Each 
chapter examines the nature 
of policy, in a particular area 
over the fifty-year period. It 
includes broad coverage 

includes the process of 
defense reviews, Britain's 
global and European roles, its 
nuclear weapons policy, and 
the management and politics 
of defense and arms 
procurement and the author's 
take issue with the traditional 
'declinist' assumptions in UK 
defense policy. They argue 
that decline has to be 
assessed in the context of the 
values, ideas, and accepted 
orthodoxys about defense 
policy. Stuart Croft is with 
University of Birmingham. 
Andrew Dorman is with Royal 
Naval College, Greenwich. 
Wyn Rees is with University of 
Leicester. Matthew Uttley is 
with Joint Services Command 
& Staff

British Social Movements 
since 1945-A. Lent 2001
Since 1945, Britain's political 
and cultural landscape has 
been transformed by social 
movements campaigning on 
issues of gender, race, 
disability, sexuality, the 
environment and peace. Yet 
until now there has been no 
methodical attempt to chart 
the histories of these 
movements alongside one 
another. From early attempts 
to decriminalise gay sex to the 
movement against
globalisation, Sex, Colour, Peace and Power takes a comprehensive approach to social movements that allows fresh insight into a neglected side of British history.

Britain Looks to Germany-Donald Cameron Watt 1965 British Politics Since 1945- Claire Charlot 1996-01-01 Fidèle à ses principes fondateurs mais adaptable, la Constitution britannique est le témoin privilégié des mutations politiques que le pays a connues, de l'Angleterre à un Royaume-Uni qui appartient désormais à l'Union Européenne. Les forces politiques y ont été façonnées de façon tout à fait originale par le biais d'une loi électorale majoritaire, essentielle mais contestée, qui a favorisé l'émergence d'un système bipartite. A la veille d'une élection générale où l'opposition travailliste est donnée favorite, les documents proposés ici passent en revue les divers aspects liés aux institutions et aux forces politiques : constitution, partis, parlement, monarchie ; ils ouvrent des pistes pour mieux comprendre les enjeux et changements politiques contemporains : comportement électoral, persuasion politique, recentrage de l'idéologie du Parti travailliste, émergence d'un nouveau type de député, appréciation du pouvoir réel des deux chambres législatives face à l'Exécutif, place grandissante prise par l'Europe, mises en cause du système, etc. Tirés de sources diverses - articles de presse, mémoires politiques, documents officiels, sondages... - les documents aident à comprendre un système politique complexe, en pleine évolution, et unique en son genre.

Third Party Politics since 1945-John Stevenson 1993-04-15 John Stevenson's fascinating study of the parties and personalities of the centre and the attempts to mount a serious challenge to the Conservative and Labour parties gives the student the essential history of the third parties in Britain up to - and after - the 1992 election.

NGOs in Contemporary Britain-N. Crowson 2009-04-22 Examining the history of social movements and non-state socio-political action, this volume shows how
Non-Governmental Organisations (NGOs) have proliferated in Britain since 1945, and how they have raised new political agendas, revived associational life, and arguably re-politicized generations disillusioned with the politics of the ballot box. Using Europe, Abusing the Europeans-Wolfram Kaiser 1996 British policy towards European integration has been one of the most divisive issues in British politics since 1945. This book analyses the formative period of British European policy between 1945 and de Gaulle's veto against British EEC membership in 1963. It is the first historical study to look at Britain's role in the integration process on the basis of a detailed evaluation of the newly accessible government records, of Conservative Party records, private papers and interviews. It argues, in particular, that it is necessary to understand the unexplored ambiguities in Britain's first EEC application of 1961, shown here as an attempt to appease the American government, to hold the Conservative Party together and to split Labour, in order to appreciate the continuing problems in its relations with Europe. In conclusion, the epilogue highlights the most important continuities in British European policy until the present. Defending the Realm?-Aaron Edwards 2012 This book details the tactical and operational dynamics of Britain's small wars, arguing that the military's use of force was more heavily constrained by wider strategic and political considerations than previously admitted. The Postwar Legacy of Appeasement-R. Gerald Hughes 2014-01-16 Focusing on the Cold War and the post-Cold War eras, R. Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re-evaluates the relationship between British society and Appeasement, both as historical memory and as a foreign policy process. The Postwar Legacy of Appeasement explores the reaction of British policy makers to the legacies of the era of Appeasement, the memory of Appeasement in
public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post-war era. Using many previously unpublished archival sources, this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period.

Britain and European Integration Since 1945-David Gowland 2010 Offering an introduction to Britain's relations with the European Union since 1945, this work combines an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics.

The Political Thought of the Conservative Party since 1945-K. Hickson 2005-04-01 The Conservative Party is usually seen as being non-ideological. This book is the first comprehensive treatment of the political thought of the Conservative Party examining the major elements of Conservative thinking since 1945, cross-cutting thematic issues and commentaries from leading politicians and journalists. The book is essential for anyone interested in the history and future of the Party.

The Road to 1945-Paul Addison 1975 1940 has long been regarded as the time when political parties put aside their differences to unite under Churchill and focus on the task of war. But the war years witnessed a radical shift in political power - dramatically expressed in Labour's decisive electoral victory in 1945.
