A History of the Crusades

Steven Runciman 2016-11-24

The third volume of Steven Runciman's classic, hugely influential trilogy on the history of the Crusades. 'The whole tale is one of faith and folly, courage and greed, hope and disillusion' Steven Runciman's triumphant three-volume A History of the Crusades remains an unsurpassed account of the events that changed the world and continue to resonate today. This final volume of the trilogy begins with the glamorous Third Crusade and ends with the ruinous collapse of the crusader states and the degeneration of their ideals, which reached its nadir in the tragic destruction of Byzantium. 'When historical events are written about with this sort of command, they take on not only the universality of a fairy tale but also a certain moral weight. Runciman writes both seductively and instructively about the dignity and beauty of different religious beliefs and about the difficulties of their co-existence.' Independent

A History of the Crusades

Steven Runciman 2016-11-24

The second volume of Steven Runciman's classic, hugely influential trilogy on the history of the Crusades 'There was magic about. Saladin himself was troubled by terrible dreams... Steven Runciman's unrivalled history of the Crusades is a classic of learning and vivid, compelling storytelling, which brilliantly brings to life the personalities, battles, massacres, triumphs and follies of these epochal events. In this second volume of his trilogy Runciman tells the story of the foundation of the Kingdom of Jerusalem, the disastrous, bloody Second Crusade and the inexorable rise of the crusaders' nemesis, Saladin. 'The pre-eminent historian of the Byzantine Empire and of the Crusades ... a surefooted guide who could render the past visible and familiar' Daily Telegraph 'He tells his story plain ... always pleasurable to read' Gore Vidal From Rome to Byzantium: Michael Grant 2015-03-04 Byzantium was praised by Gibbon, in the Decline and Fall of the Roman Empire, and his Victorian successors as a decadent, dark, oriental culture, given up to intrigue, forbidden pleasure and refined cruelty. This great empire, founded by Constantine as the seat of power in the East began to flourish in the fifth century AD, after the fall of Rome, yet its culture and history have been neglected by scholars in comparison to the privileging of interest in the Western and Roman Empire. Michael Grant's latest book aims to compensate for that neglect and to provide an insight into the nature of the Byzantine Empire in the fifth century; the prevalence of Christianity, the enormity and strangeness of the landscape of Asia Minor; and the history of invasion prior to the genesis of the empire. Michael Grant's narrative is lucid and colourful as always, lavishly illustrated with photographs and maps. He successfully provides an examination of a comparatively unexplored area and constructs the history of an empire which rivals the former richness and diversity of a now fallen Rome.' The History of Civilization: Amos Dean 1869

The Byzantine Empire (Revised Edition)

Robert Browning 1992-10-01

This classic study presents the history of the Byzantine Empire from the sixth to the fifteenth century in terms of political events, art, literature, and thought. It is addressed to the general reader of history as well as to students and scholars. Monuments of Medieval Art: Robert G. Calkins 1985

This richly illustrated and scholarly study traces the development of art through the Middle Ages, from the early Christian catacombs of Italy and the treasures of Sutton Hoo to the masterpieces of Romanesque cathedrals and illuminated manuscripts. Daily Life in the Byzantine Empire: Marcus Lautman 2006

Discusses daily life in the Byzantine Empire, examining such topics as housing, clothing, food, medicine, religion, law, and folk tales. Byzantium (Peter Sarris 2015)

Explores the fusion of Roman political culture, Greek intellectual tradition, and Christian faith that characterized Byzantium. Shows how the empire held power for eleven centuries and why it ultimately fell.

Historical Dictionary of Byzantium

John H. Rosser 2012

The Byzantine Empire dates back to Constantine the Great, the first Christian ruler of the Roman Empire, who, in 330 AD, moved the imperial capital from Rome to a port city in modern-day Turkey, which he then renamed Constantinople in his honor. From its founding, the Byzantine Empire was a major anchor of east-west trade, and culture, art, architecture, and the economy all prospered in the newly Christian empire. As Byzantium moved into the middle and late period, Greek became the official language of both church and state and the Empire's cultural and religious influence extended well beyond its boundaries. In the mid-15th century, the Ottoman Turks put an end to 1,100 years of Byzantine history by capturing Constantinople, but the Empire's legacy in art, culture, and religion endured long after its fall. In this revised and updated second edition of the Historical Dictionary of Byzantium, author John H. Rosser introduces both the general reader and the researcher to the history of the Byzantine Empire. This comprehensive dictionary includes detailed, alphabetical entries on key figures, ideas, places, and themes related to Byzantine art, history, and religion, and the second edition contains numerous additional entries on broad topics such as transportation and gender, which were less prominent in the previous edition. An expanded introduction introduces the reader to Byzantium and a guide to further sources and suggested readings can be found in the extensive bibliography that follows maps and alphabetical entries. As always, the language is clear and the coverage is broad and surprisingly deep. This book is an excellent access point for students, researchers, and anyone wanting to know more about Byzantium. Sailing from Byzantium

Colin Wells 2008-12-10

A gripping intellectual adventure story, Sailing from Byzantium sweeps you from the deserts of Arabia to the dark forests of northern Russia, from the colorful towns of Renaissance Italy to the final moments of a millennial city under siege.... Byzantium: the successor of Greece and Rome, this magnificent empire bridged the ancient and modern worlds for more than a thousand years. Without Byzantium, the works of Homer and Herodotus, Plato and Aristotle, Sophocles and Aeschylus, would never have survived. Yet very few of us have any idea of the enormous debt we owe them. The story of Byzantium is a real-life adventure of electrifying ideas, high drama, colorful characters, and inspiring feats of daring. In Sailing from Byzantium, Colin Wells tells of the missionaries, mystics, philosophers, and artists who against great odds and often at peril of their own lives spread Greek ideas to the Italians, the Arabs, and the Slavs. Their heroic efforts inspired the Renaissance, the golden age of Islamic learning, and Russian Orthodox Christianity, which came complete with a new alphabet, architecture, and one of the world's greatest artistic traditions. The story's central reference point is an arcanely squallable called the Hesychast controversy that pitted humanist scholars led by the brilliant, acerbic intellectual Baraam against the powerful monks of Mount Athos led by the stern Gregory Palamas, who denounced “pagan” rationalism in favor of Christian mysticism. Within a few decades, the light of Byzantium would be extinguished forever by the invading Turks, but not before the humanists found a safe haven for Greek literature. The controversy of rationalism versus faith would continue to be argued by some of history's greatest minds. Fast-paced, compulsively readable, and filled with fascinating insights, Sailing from Byzantium is one of the great historical dramas—the gripping story of how the flame of civilization was saved and passed on. A World History of Art

Hugh Honour 2005

Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present, every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring
to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronology of architectural and artistic achievements. The Visual Arts-Hugh Honour 2010 Hailed as the most up-to-date and comprehensive survey published in a single volume, this new revised edition is an authoritative and enlightened account of the history of art. It presents art history as an essential part of the development of humankind, encompassing the arts of Asia, Africa, Oceania, Europe, and the Americas-spanning from the primitive art of hunters 30,000 years ago to the most controversial art forms of today. The text is beautifully and generously illustrated with over 1,400 superb photographs, including architectural plans and color maps.

The History of Modern Civilization-Gustave Ducoudray 1891 Mediterranean-Jacques Meerman 2019-06-17 Jacques Meerman Mediterranean: Een culinaire reisgids voor de mediterrane meridieën: Meerman is een culinaire meesterwerken waarvan elke geschiedenislezer zal smullen. Voor de lezers van De zijderoutjes van Peter Frankopan. In Mediterranean quarkruptureert, een versperring in de joodse rabbi, een islamitische ambachtsman van Granada en een Marokkaanse geograaf om een reis te maken rond de Middellandse Zee in de twaalfde eeuw. In navolging van zijn alom bejubelde Kleine geschiedenis van de Nederlandse keuken schrijft Meerman met een brede historische kijk op de wereldkeuken. Een culinaire-historiese reisgids om je vingers bij te likken. ‘Een spannende en betoverende culinaire odyssee, een verbazingwekkend verhaal dat laat zien wat we wangedrag de dag op ons bord hebben.’ — Claudia Roden

Asia in Western and World History: A Guide for Teaching-Ainslie T. Embree 2015-05-20 A guide aimed at introducing students to the history of Asia in conjunction with Western and world history.

Books on Turley-2005 The Old Testament in Byzantium-Paul Magdalino 2010 This volume contains selected papers from a December 2006 Dumbarton Oaks symposium that complemented an exhibition of early Bible manuscripts at the Freer Gallery of Art and Sakeller Gallery of Art titled “In the Beginning: Bibles before the Year 1000.” Speakers were invited to examine the use of the Greek Old Testament as a text, social practice, and cultural experience in the Byzantine Empire. Not only are reminiscences of the Old Testament ubiquitous in Byzantine literature and art, but the Byzantine Empire was one of the first to translate the Old Testament into a vernacular tongue. This volume of essays examines the role of the Old Testament in Byzantium not only with its Christian neighbors but with Jewish and Muslim peoples as well. This widespread phenomenon has never received systematic investigation. The Old Testament in Byzantium considers the manifestations of the holy books in Byzantine manuscript illustration, architecture, and government, as well as in Jewish Bible translations and the construction of Muhammad’s character.

Passionate Holiness-Dennis O’Neill 2010-01 NEW 2010 B&W Edition Archbishop Desmond Tutu of Cape Town once said with regard to South Africa’s Apartheid policy, “One of the ways of helping to destroy a people is to tell them that they don’t have a history, that they have no roots.” He recently described homophobia as “totally unacceptable and unjust as Apartheid ever was.” Unfortunately, it has been particularly for some gay, lesbian, bisexual, and transgendered Christians to remain connected with and identified with their own faith traditions because some of these traditions not only treat them as people of secondary status but teach them that they don’t have a history. This is the case in some of these traditions not only treat them as people of secondary status but teach them that they don’t have a history. This is the case of some of these traditions, especially those identified with Old Testament texts. These texts reinforce the idea that Jewish and Muslim peoples as well. This widespread phenomenon has never received systematic investigation. The Old Testament in Byzantium considers the manifestations of the holy books in Byzantine manuscript illustration, architecture, and government, as well as in Jewish Bible translations and the construction of Muhammad’s character.

Vikings, English, French and the Hanseatic League. Weaving together details of medieval ship design and naval organization, O’Neill uncovers a unique perspective on the history of medieval shipbuilding. He explores the role of the ship in the economy and politics of the era, and how it influenced the development of European civilization. O’Neill’s work offers a comprehensive and accessible overview of the medieval shipbuilding industry, from the earliest medieval ships to the late 15th century. It is an essential resource for students and historians interested in the history of maritime navigation and shipbuilding.

The Complete Archaeology of Greece-John Bintliff 2012-03-19 The Complete Archaeology of Greece covers the incredible richness and variety of Greek culture and its central role in our understanding of European civilization, from the Paleolithic era of 400,000 years ago to the early modern period. In a single volume, the field’s traditional focus on art and archaeology has been combined with a rigorous overview of the latest archaeological evidence forming a truly comprehensive work on Greek civilization. *Extensive notes on the text are freely available online at Wiley Online Library, and include additional details and references for both the serious researcher and general reader. Christians and Muslims met in Rome in the early 12th century and the development of human society in Greece from the earliest human traces up till the early 20th century AD Provides 22 chapters and an introduction chronologically surveying the phases of Greek culture, with over 200 illustrations Features over 200 images of art, architecture, and ancient texts, and integrates new archaeological discoveries for a more detailed picture of the Greek past, its landscape, and its people Explains how scientific advances in archaeology have provided a broader perspective on Greek history and its impact on the modern world.
